

I urge the Committee members to recognize that both of these bills are merely ANTI Gun bills thinly disguised as Public Safety bills.

What is needed is to arrest, convict and sentence the people committing illegal acts. The very same people who are so quick to blame an inanimate object for the deeds committed by a human being, are soft on those criminals, and vote to ease penalties. We have plenty of existing laws, and even those are not often enforced. 70% of Gun Crimes are not prosecuted, so what is needed are tough prosecutors and judges, not more laws.

Law abiding citizens are the only ones who will be affected by these laws, they will make nobody safer.

PLEASE VOTE NO.

Thank you,

Chas Catania
